SUMMARY

Enthusiastic Full Stack Developer with strong expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js) and a solid foundation in HTML, CSS, and JavaScript. Experienced in building and deploying responsive, secure, and user-friendly full-stack applications. Skilled in RESTful API integration, state management using Redux, and UI design with Bootstrap/Tailwind CSS. Strong problem-solving, communication, and teamwork skills with a passion for delivering high-quality, scalable solutions.

TECHNICAL SKILLS

• Frontend: HTML5, CSS, JavaScript, React, Redux, Bootstrap, Tailwind CSS

• Languages: Python, C, C++, JavaScript, SQL, JAVA

Platforms: Linux, Windows
 Databases: MySQL, MongoDB
 Deployment: Vercel, Netify, Render

• Other Tools: Git/GitHub, Figma, Postman, Thunder Client, VS Code, Vite, Microsoft Office

• Testing & Security: Software Testing, Ethical Hacking

• Cloud & Infra: Cloud Computing, AWS, Google Cloud, Azure

• Soft Skills: Leadership, Debugging, Adaptive, Public Speaking, Time Management, Creativity

Experience

Luminar Technolab - Kochi, Kerala

On-site

MERN Stack Developer (Full-time)

Sep 2024 - Present

Email: fazahafami@gmail.com

Mobile: +91-9447235965

- FullStack Developer: Built and deployed responsive full-stack web applications using MongoDB, Express.js, React.js, and Node.js, with features like user authentication (JWT), dynamic routing, and secure CRUD operations.
- UI/UX: Designed interactive UI components with React, managed state using Redux, and styled layouts using Tailwind CSS or Bootstrap to ensure cross-device responsiveness.
- **Deployement**: Integrated and tested RESTful APIs, managed version control with Git/GitHub, and deployed projects using Vercel, Netlify, and Render for production-ready performance.

Wipro Limited - Hyderabad

Remote

Student Trainee- Tech Support Engineer (Full-time)

May 2022 - February 2024

• Worked in Global Help Desk as Tier 3 Support Engineer, Incident Management.:

Projects

- Thekkottil Embroideries -MERN Stack Project: (Work in progress) The website is designed to showcase services, attract bulk orders, and enable smooth communication with customers, including real-time chat, enquiry handling, and an admin dashboard for easy business management. Tech: MongoDB, Express.js, React.js, Node.js, Socket.IO https://thekkottil-embroideries-o9dd.vercel.app/
- PawMart React: (Work in progress) An interactive platform designed to simplify the process of exploring, purchasing, and managing pet-related products and services. Developed using React for the frontend and JSON Server for backend simulation, this project provides a smooth user experience for both customers and administrators.

 https://pet-shop-sample.vercel.app/shopPets/
- Media Player React: Developed a responsive and interactive web-based media player as part of academic training. The application allows users to stream audio content with a clean and user-friendly interface. https://media-player-frontend-eight-virid.vercel.app/

EDUCATION

St. Terersa's College

Ernakulam, India

Bachelor of Computer Applications; GPA: 7.5

June 2019 - April 2022

 $\textbf{\textit{Courses:}} \ \ \textit{Operating Systems, Data Structures, JAVA} \ , \ \textit{C} \ , \ \textit{C++} \ , \ \textit{Cloud Technology, Ethical Hacking, Information Security, Networking, Databases}$

CERTIFICATIONS

- Programming for Everybody (Getting Started with Python) Feb, 2025
- Create Your First Python Program From UST- Coursera Project Network- Aug, 2024
- Certified in "Certified Secure Computer User (CSCU)" Jan, 2019
